Entered according to Act of Congress, A. D. 1893, by THEO. A. KOCHS
in the Office of the Librarian of Congress, at Washington

TERMS.

OUR terms are *Cash, C. O. D.*, but when the amount is \$2.00 or less, a remittance in full should accompany the order. *All* orders from points located at a distance from Chicago, should be accompanied by a remittance in full or by a deposit sufficient to cover transportation charges, as a guarantee that the goods will be taken on arrival. Orders for Barbers' Chairs, Furniture, Bath Outfits or Plumbing goods, must be accompanied by a sufficient deposit, unless the entire amount is remitted. We pay the RETURN CHARGES on orders amounting to \$5.00 or over. RETURN CHARGES are the charges made by the express company for collecting the money and returning it to us.

On all bills amounting to \$15.00 or over, we allow a *discount* of 5 per cent.

ESTIMATES.—Upon complete outfits we can offer very liberal inducements, and we are always glad to furnish estimates or any information desired. Our facilities for immediately furnishing entire outfits are absolutely unequalled, and we know that our prices will be found as low as the lowest.

SHIPPING INSTRUCTIONS.—In ordering goods of us, please always be particular to state whether shipment is to be made by express or freight, and if you prefer to have shipment made over any particular line, please be careful to so state when ordering.

If goods are to be sent by mail, please always so state when ordering and remit the price of the goods and an amount sufficient to cover postage.

Please bear in mind that liquids in glass bottles are not mailable, and goods

of this kind, and glassware, mugs and other breakable articles, should always be shipped by express. Goods sent by mail are subject to examination, and in examining them the packing is taken out by the post-office officials, and sometimes is not properly replaced.

In ordering Chairs or Furniture, please state whether they are to be shipped by express or freight, and what wood is wanted. We quote most of our Chairs and Furniture in more than one wood, and great care should be taken to state just what is wanted, and, in ordering Chairs, what color plush is to be used in upholstering.

We make no charge for boxing or cartage, and always secure for our customers the lowest rate of freight obtainable.

NOTICE.—In shipping goods by express, C. O. D., we always send an itemized bill, but if any of our customers object to having this bill seen by the express agent, we will send it to them by mail. When shipment is desired in this way, however, it should be mentioned *each time* when ordering.

We are always very willing to correct any errors that have occurred through any oversight on our part, and we will consider it a special favor if our patrons will promptly call our attention to any orders that are not properly filled. In handling hundreds of orders each day, errors are bound to occur, but they are simply clerical errors which we are always glad to correct, and which we endeavor as far as possible to avoid.

We extend to you a most
cordial invitation to call upon us while you
are in Chicago, visiting the World's Fair.
While our exhibit at the Fair grounds
will be worthy of your attention, our prin-
cipal exhibition will be at

155-157 Wells Street, cor. of Erie,
and we hope to be favored with a call
from you. We shall be pleased to show

you the latest styles in Chairs and Fur-
niture, and the newest goods in the line of
Supplies, and to conduct you through
and explain the workings of the
Largest Barbers' Supply House
in the World.

Theo. A. Kochs.

CHICAGO, April 1st, 1893.

KOCHS' COLUMBIA (TRADE-MARK REGISTERED)

Revolving · and · Reclining · Barbers' · Chairs

PATENTED DECEMBER 8, 1891

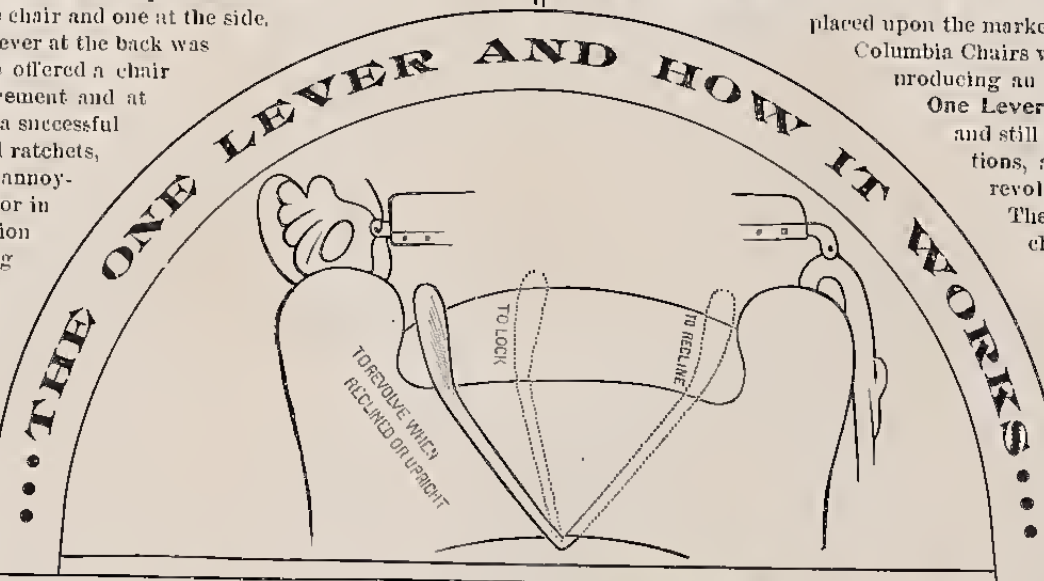

ONE LEVER

is all that is necessary to recline the chair or to revolve it when reclined or upright, and every result can be accomplished that other chairs require a lever and a foot-treadle to accomplish.....

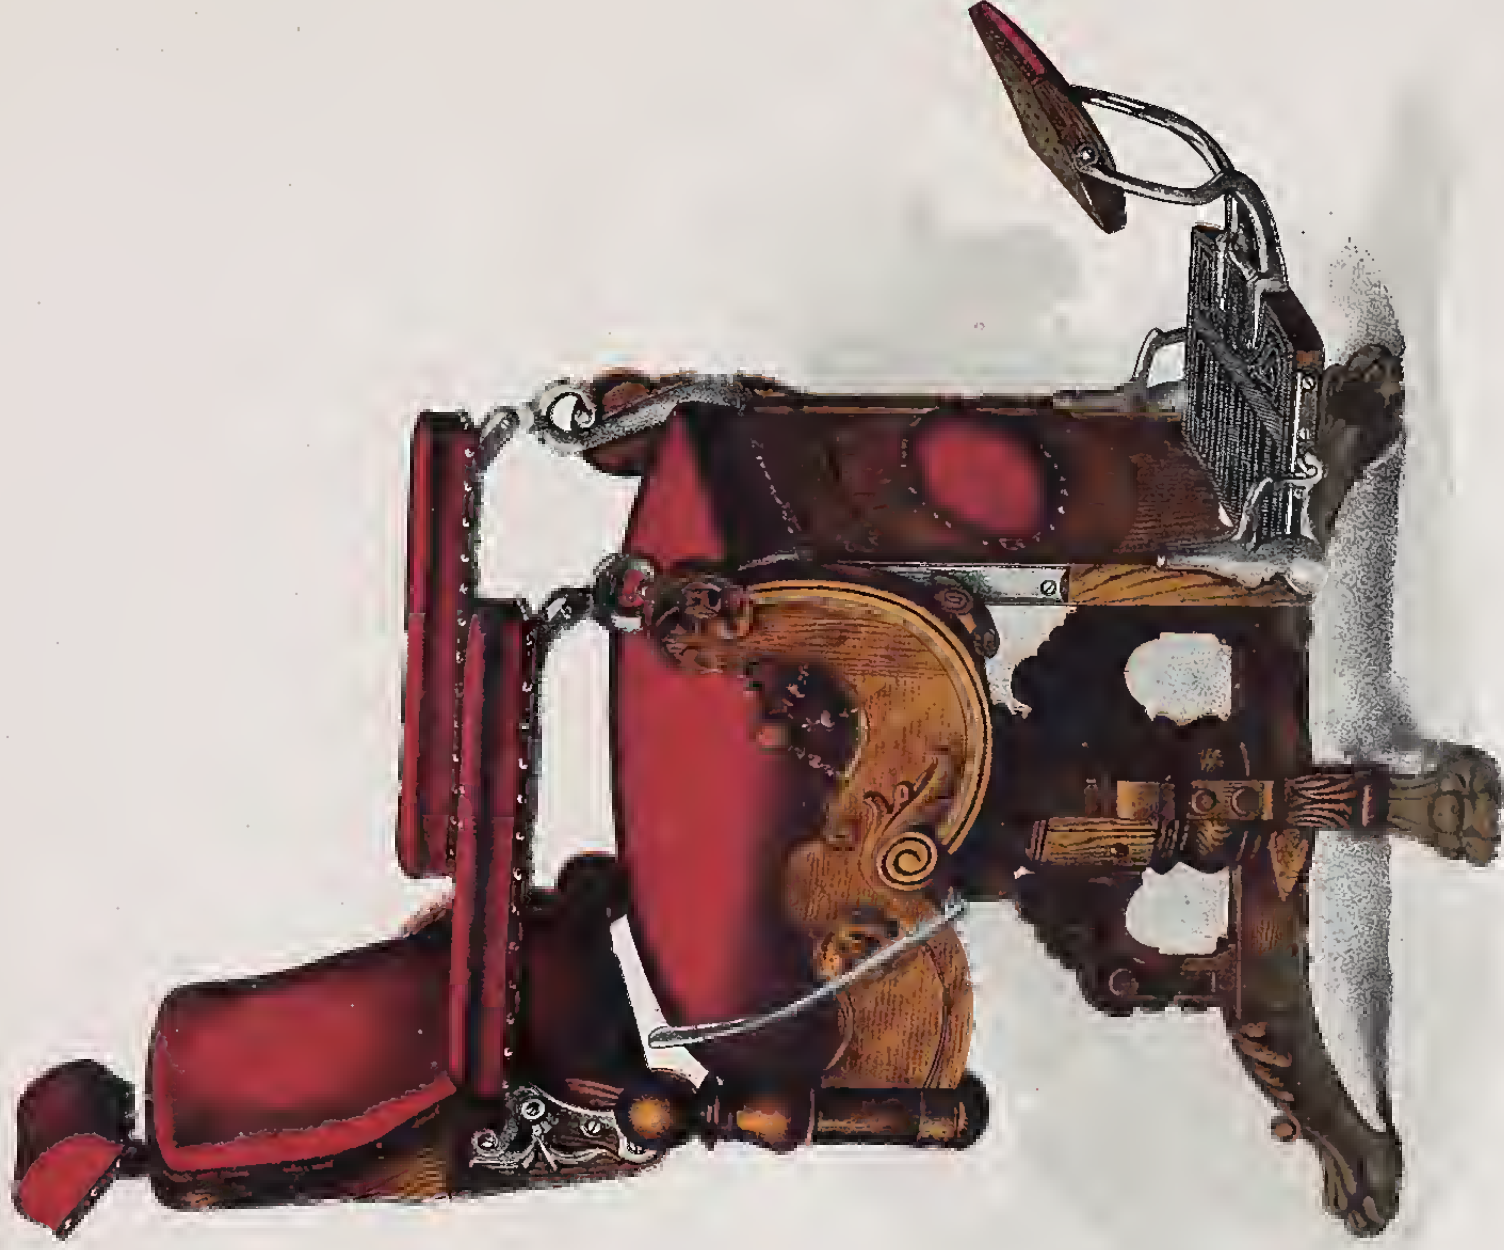

"Improvement is the order of the age," and in the first Columbia Chair that we introduced (in 1888) we offered a chair that was operated with two levers and without the objectionable foot-treadle. We placed one lever at the back of the chair and one at the side, but we soon learned from experience that the lever at the back was impracticable, and in our Columbia of 1889, we offered a chair with a lever at each side. This was an improvement and at once met with hearty favor, but we realized that a successful chair must be made without springs or toothed ratchets, which are a constant source of trouble and annoyance. Our efforts were more than successful, for in our Columbia of 1891 we offered to the profession a chair that was made not only without a spring or a ratchet, but which combined in **One Lever** the entire control of the chair. The success of this innovation has been very great, and the chair has been pronounced perfect by hundreds of barbers who have them in daily use and who appreciate the advantages we offer them in this chair. We have made such alterations as have suggested themselves from time to time, and we now offer our

Columbia of 1893 which is, without any doubt, the most perfect Revolving and Reclining Chair ever placed upon the market. Combining in it all of the best features of the Columbia Chairs we have made in years past, we have succeeded in producing an article that absolutely excels. By simply placing **One Lever** (which is conveniently placed at the right hand, and still entirely out of the way) in three different positions, as illustrated, the chair can be reclined, locked, or revolved when reclined or in an upright position. There is not a spring nor a toothed ratchet in the machinery, and it is absolutely noiseless in its action.

The lever is most easily placed from one position to another, for there are no springs in the machinery, and consequently no power of a spring to overcome, and we shall be pleased to furnish at any time hundreds of testimonials that we have received from leading barbers, in which the ease of operation, superiority of plush and workmanship and durability are particularly mentioned.

SEE THAT THE NAME **COLUMBIA** IS ON EVERY CHAIR.

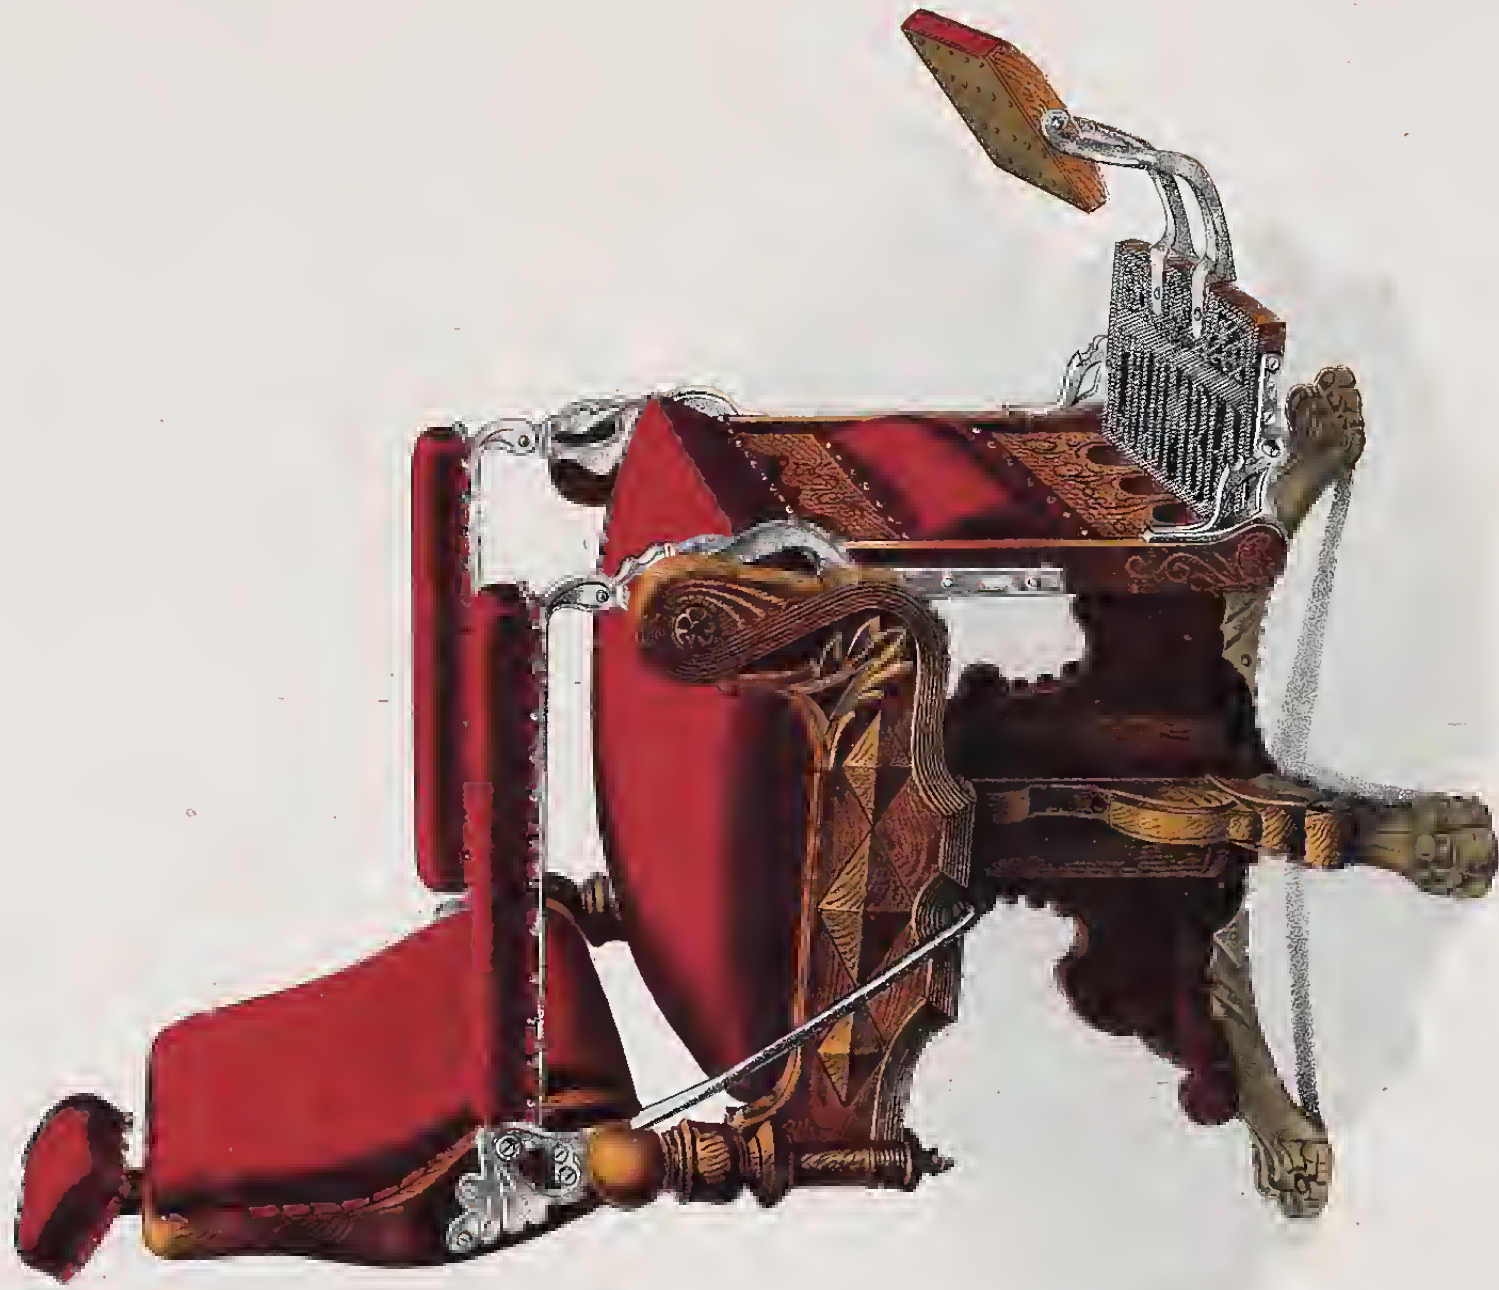

KOCHS' COLUMBIA, No. 8.

REVOLVING AND RECLINING CHAIR.

Patented Dec. 8, 1891.

(Illustration shows lever in position to lock the chair.)

Made of Oak (antique finish) only. Price, covered with best Mohair

FOR DESCRIPTION OF MACHINERY, SEE PAGE 4.

KOCHS' BARBERS' CHAIRS With Lifting Treadle Machinery.

PATENTED SEPTEMBER 30, 1890.

A slight pressure of the foot upon the treadle is all that is necessary to return the chair and occupant to an upright position.

NO LIFTING.

NO MORE HARD LABOR.

NO STRAINING.

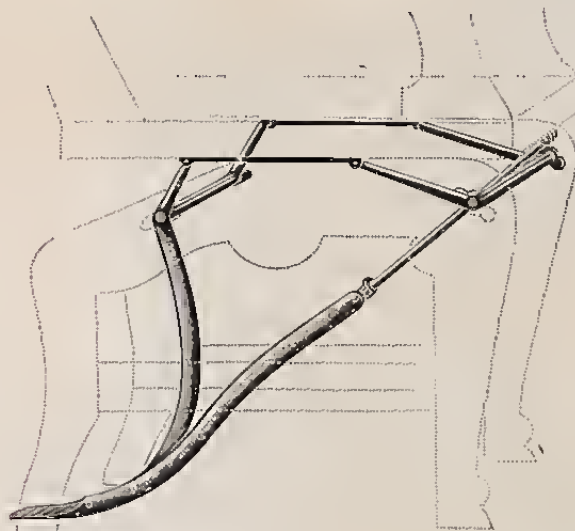

ILLUSTRATION SHOWS POSITION OF TREADLE WHEN CHAIR IS UPRIGHT.

Probably the hardest part of the day's work for the barber who is using an adjustable chair, is that which obliges him to lift the combined weight of the chair and customer every time that he finishes shaving, and the release from this that we offer in our Lifting Treadle Machinery has been hailed with delight by the profession. When the operation of shaving a customer is completed, all that is necessary is a slight pressure of the foot upon the treadle and the chair is easily and gradually returned to an upright position without the use of the hands.

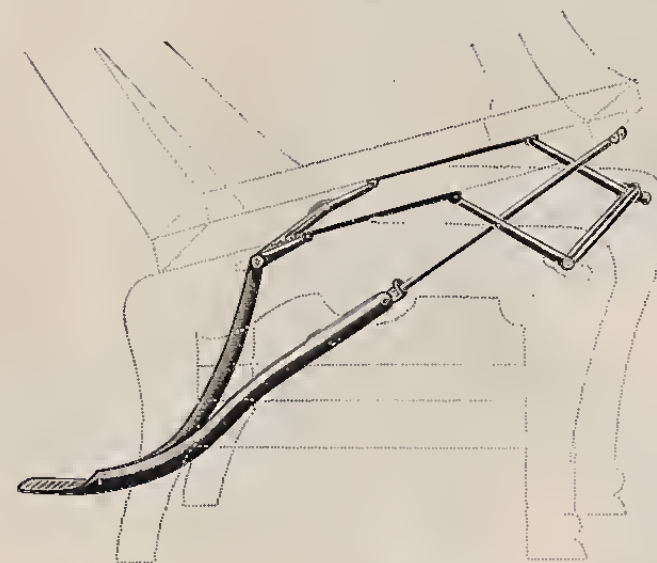

ILLUSTRATION SHOWS POSITION OF TREADLE WHEN CHAIR IS RECLINED.

There is not a spring nor a toothed ratchet in the machinery, so that the trouble and expense of broken chair springs is entirely done away with and there is absolutely nothing to wear. The chair can be adjusted to ANY desired position, even to the fraction of $\frac{1}{1000}$ of an inch, for the locking arrangement acts immediately when the treadle is released, and there is none of the lost motion and consequent wear that is unavoidable on chairs using toothed ratchets. If you are buying adjustable chairs, be sure that they are fitted with Kochs' Lifting Treadle Machinery.

KOCHS' BARBERS' CHAIR, No. 36.

WITH LIFTING TREADLE.

Covered with Mohair Plush, Crimson, Maroon, Green or Old Gold.....	26.00

KOCHS' FOLDING BARBERS' CHAIR, No. 40.

Made of OAK; upholstered in Velour Plush, and tastily trimmed with fringes; back covered with Velour Plush. Occupying but little space when folded, and weighing less than 25 pounds, this chair is readily transported across rough and mountainous country.

The advantage of such a chair to the soldier in camp is obvious. The tonsorial artist will also find it of service when making occasional trips to some summer resort.

Price	\$12.00

Our Mirror Cases

possess points of superiority
that make it decidedly to the advantage
of the profession to deal with us when wanting
anything of this kind, and we claim to be the leaders
in the production of designs that are new and entirely
original. We offer a large variety, this year, of Mirror Cases of
all grades and varieties, and we have at all times a complete stock on hand
so that we are enabled to make prompt shipment when desired. Particular
attention is paid to the finish, and Mirror Cases that we ship have obtained a world-wide
reputation for that hard, high finish that makes the shop attractive. In oak this is particularly
noticeable and the rich, golden antique finish that we produce contrasts most favorably with the
so-called antique finish that is used by others and which has a dark and dense appearance. It will
be noticed that in all our Mirror Cases where a single plate is used for each section, we
always use the full size plate, 44x54 inches. This is the only correct size and
in comparing with other catalogues our Mirror Cases should not be
confounded with those of other manufacturers who use
smaller plates. The length of our plates is 54
inches and this space is absolutely neces-
sary to the comfort of the
barber in working
at the chair.

MIRROR CASE, No. 14.

Made of OAK (antique finish) only. Furnished with French plates 44 x 54, beveled. Italian marble top. Height, 9 ft. 7 in.

PRICES:

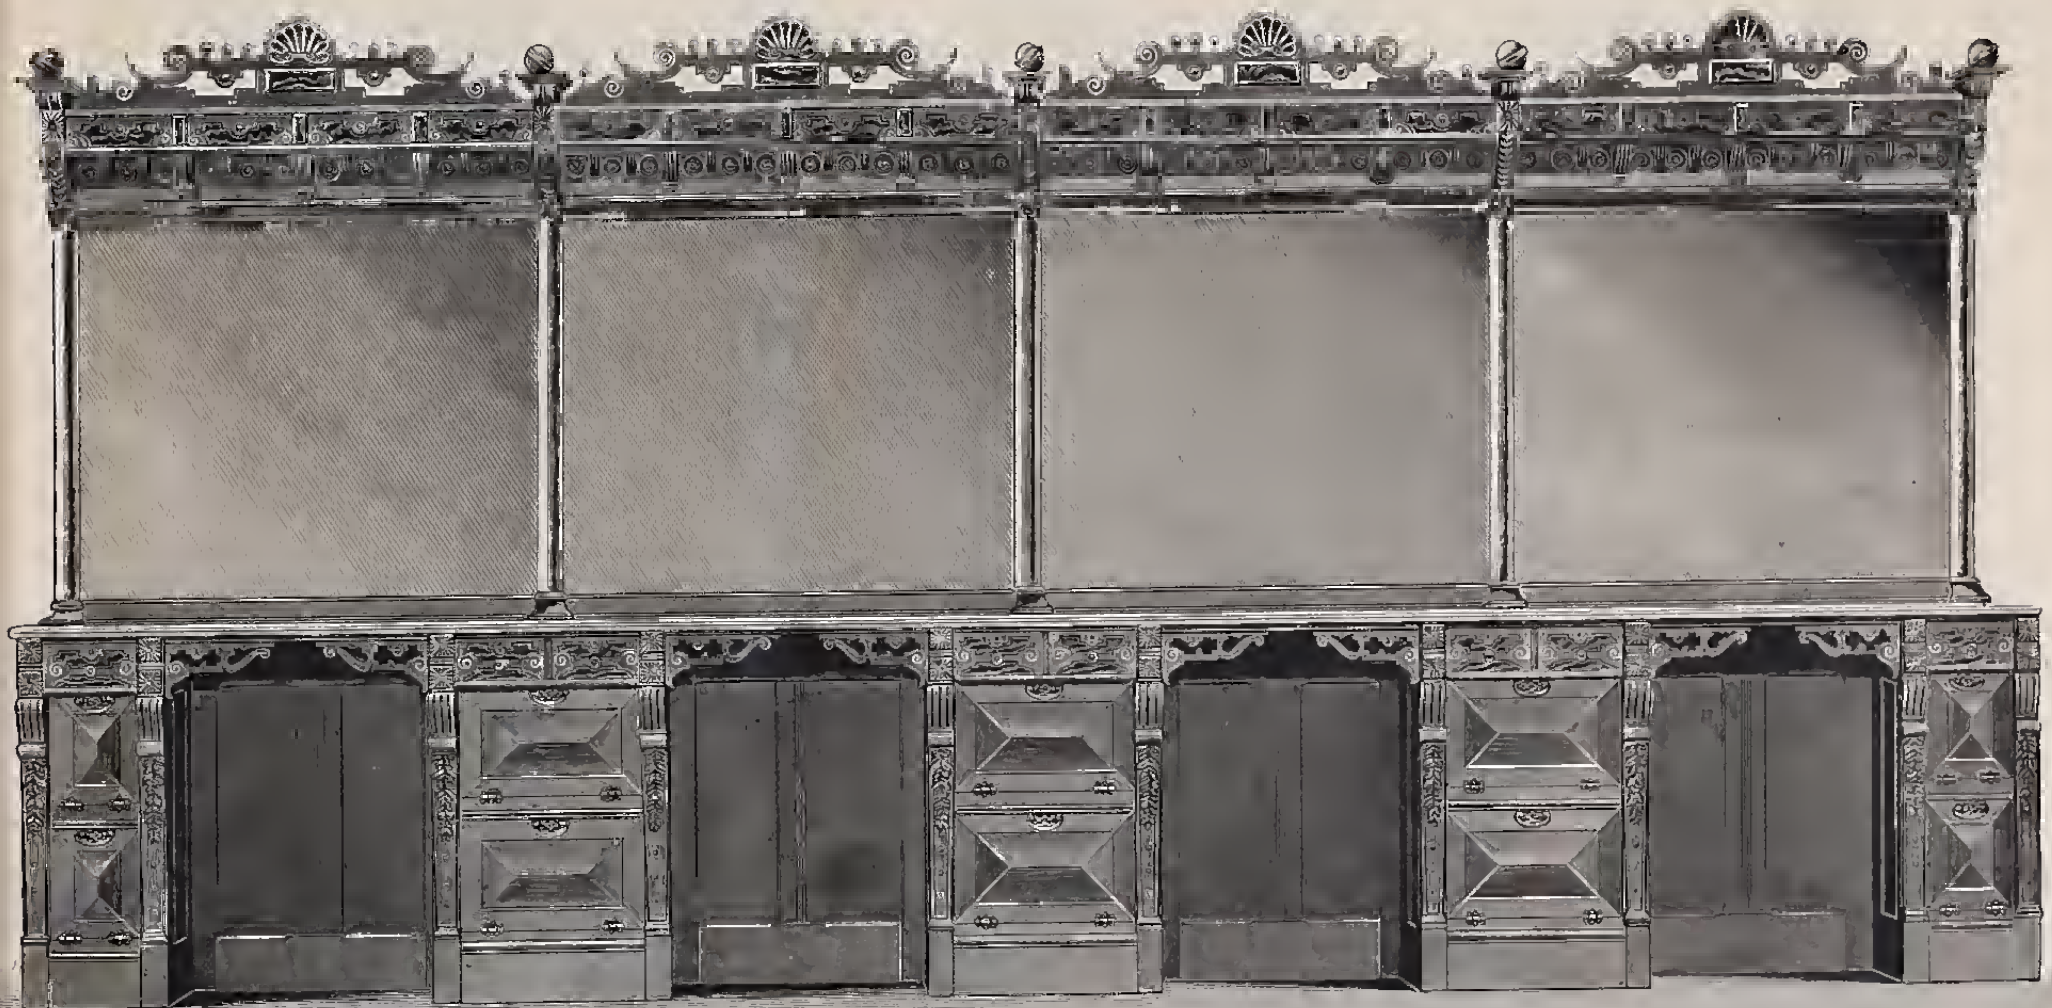

Arranged for 3 Chairs.....\$450.00

BARBERS' POLES.

Upon the opposite page we illustrate a line of Barbers' Poles in designs that are original and ornamental, and at prices which will be found exceedingly low. We have unexceptionable facilities for the manufacture of these, and as each department through which the pole passes in process of making is in our own building and under our immediate supervision, our patrons can depend upon getting the very best. We use only materials of first quality, the cedar posts that we use being carefully selected and well seasoned before they are turned, and the paints are of the highest standard. The painting department is in charge of a competent artist of long experience, and the work is always done in a manner that will give the best satisfaction.

DESIGNS FOR MUGS.

We can place upon a Shaving Mug any design, drawing or lettering desired, and from our large selection of sketches can usually fill an order for anything desired; but if we should not have the especial design wanted, we can copy it on a shaving mug, reduced in size or enlarged, if a drawing or sketch be furnished. The No. 1 Mug, large size, is the best style to use for designs. We quote below prices for some of our trade designs, and these prices are to be added to the price of the mug on which the design is placed.

OUR GRINDING DEPARTMENT.

In our Grind Shop we employ only skilled workmen, and this is a department in which we absolutely excel. The shop is in our own building, is well lighted, supplied with all the latest improved machinery, and it is impossible to have the work more perfectly done. In this department we grind all our own razors and sharpen and repair razors, shears and clippers. Our facilities are unequalled, and here we again demonstrate our advantages over other houses, for we grind only barbers' tools and do not do a general grinding business. Our men are experts at razor concaving and barbers' shears and clipper grinding, and, devoting their entire time and attention to work of that class, are bound to excel. We are exclusively in the business of Barbers' Supplies and patrons will find that in this and every other department this fact operates greatly to their advantage.

DIRECTIONS.—Razors are available, if the razor is *securely bound with wire*, so the blade cannot open. The *safest* way to send grinding is by *express*. In sending unsealed packages of razors or other tools by mail, do not enclose any writing in the package, but send full directions by letter. Write your name and address on the outside of the package. We frequently receive a package without any name or address marked on, and nothing to indicate who sent it. Delays naturally occur, until we can discover who the sender is. If razors are to be returned by mail, please remit three cents for each razor.

CHARGES FOR GRINDING.

Razors ground plain.....	\$0.25	Shears ground.....	\$0.15
Razors re-ground.....	.35	New screw in shears.....	.10
Razors half-concave.....	.35	Clippers ground, all makes.....	.50
Razors three-quarter concave.....	.40	Horse Clippers (with wooden handles)	
Razors full concave.....	.50	ground.....	.75

For reducing large razors to smaller size, or for grinding razors that have been purposely hacked or broken, there will be an extra charge of 10 to 15 cents, considerable time and attention being required for this class of work.

For prices of Lucifer razors, see opposite page.

Our razors are made from the best material and are carefully ground by expert workmen, but if a razor purchased from us does not meet the wants of a customer we are always willing to make one exchange for another, if the razor is returned promptly, free of charge and in good order.

RAZORS—Full Hollow Ground.

THE "LUCIFER" RAZOR.

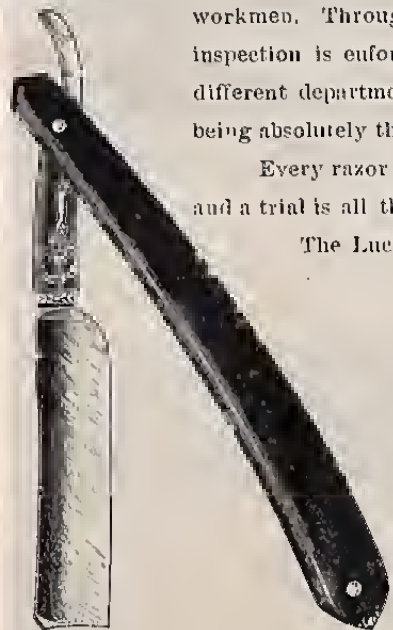

The Lucifer is a brand that we can guarantee as being strictly first-class from every standpoint, and our confidence in this razor is strengthened every day by the large number of orders we are receiving and which we have been receiving steadily since the razor was introduced. Particular attention is paid to the selection of the material used in these blades, and they are ground only by expert

workmen. Throughout the entire course of manufacture, the most rigid inspection is enforced so that the razors that are finally passed by the different departments through which they go, can be depended upon as being absolutely the best that money can buy.

Every razor that we send out is honed, ready for immediate use, and a trial is all that is necessary to convince the most skeptical that

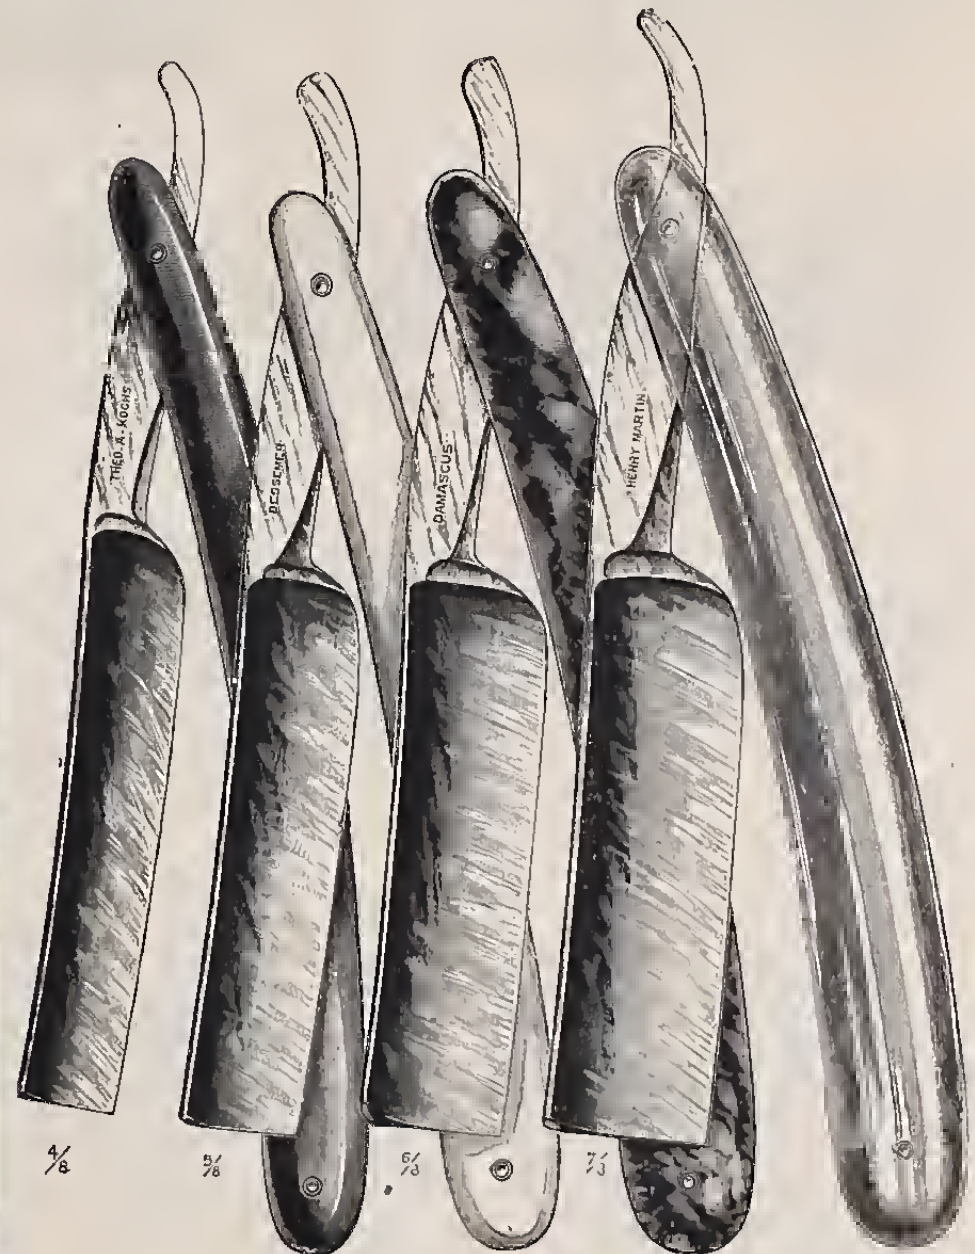

The Lucifer is "the very best."

**Our Preparations**

are of standard quality and can ALWAYS be depended upon to be strictly first class, for the greatest care is exercised in preserving the quality of the ingredients used. Our patrons can always depend upon it that every lot will be just the same as that which was received last and which, no doubt, gave perfect satisfaction, and we appreciate that this feature has been very largely responsible for the success of our perfumery department. We aim to produce only the very best and it will be our constant endeavor to maintain our present high standard. See that our Trade Mark is on everything you use.

KOCHS' HAIR DYE.

This Dye is put up in boxes containing two bottles (2 oz. No. 1 and 1 oz. No. 2), and has been manufactured by us for a number of years. It dyes the hair jet black instantaneously, and full directions for use accompany every box.

BARBERS' TRAVELING CASE.

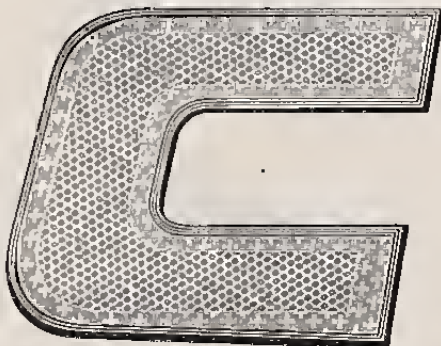

CLOSED.

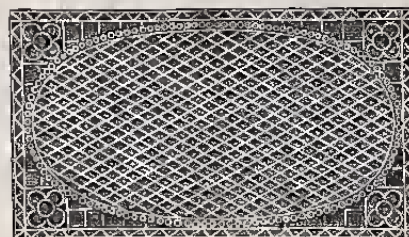

OPEN.

This handy article, which has been found to fill a long-felt want, is entirely original with us, and everything has been done to make it strictly first-class in every particular. Inferior imitations have been placed upon the market and illustrated by identically the same illustration which we use, and which we originated, but the genuine article is made in the best possible manner. Our traveling case is covered with leather and lined with velvet throughout, is furnished with a good nickel-plated lock and key, and is put together substantially. The arrangement is very compact, and the case measures upon the outside only $11\frac{1}{2}$ inches long, $6\frac{1}{2}$ inches wide, and 9 inches high.

Price, case only, with three empty bottles.....\$7.50
